

Efficient online planner formats

Possible Capabilities

- Planners:
 - Monthly calendar
 - Create, edit, and delete events and tasks
 - Daily entries appear enlarged on side when open in home page
 - Customize color scheme, themes, and layout (dynamic)
 - Share and sync calendar with friends
 - Data backup and restore
 - Sync with google calendar
 - Assign colors to a specific category (to do, birthday, etc.)
 - Ability to click on a specific day and a pop up show what is entered for that day, while also given option to then create, edit, and delete events and tasks
 - Weekly schedule
 - Create, edit, and delete events and tasks
 - Customize color scheme, themes, and layout
 - Data backup and restore
 - Assign colors to a specific category (to do, birthday, etc.)
 - Daily schedule
 - Create, edit, and delete events and tasks
 - Able to see specific times throughout the day (hourly)
 - Customize color scheme, themes, and layout (dynamic)
 - Data backup and restore
 - School schedule
 - Enter class name, type, time, location, professor
 - Different colors for different classes
 - Customize color scheme, themes, and layout (dynamic)
 - Data backup and restore
- Features: meal planning, lists, and fitness tracking
 - Should be easy to get to from home page and go back to home page
 - Transition from one page to another should be clean
 - User can choose between different themes and color schemes for different pages
 - User should always have access to logout or settings

Examples/ideas

Google calendar

The screenshot shows the Google Calendar interface for February 2020. The top navigation bar includes 'Today', 'Month' (selected), and a user icon. The main area displays a monthly grid from Sunday, February 26, to Saturday, March 1. Several events are marked: 'Valentine's Day' on Friday, February 14; 'Presidents' Day (re)' on Monday, February 17; and 'Birthdays' on Saturday, February 15. A sidebar on the left contains a 'Create' button, a calendar for February 2020, a search bar, and sections for 'My calendars' (Barbara Krasnoff, Birthdays, Reminders, Tasks) and 'Other calendars' (Holidays in United States). A bottom footer links to 'Terms' and 'Privacy'.

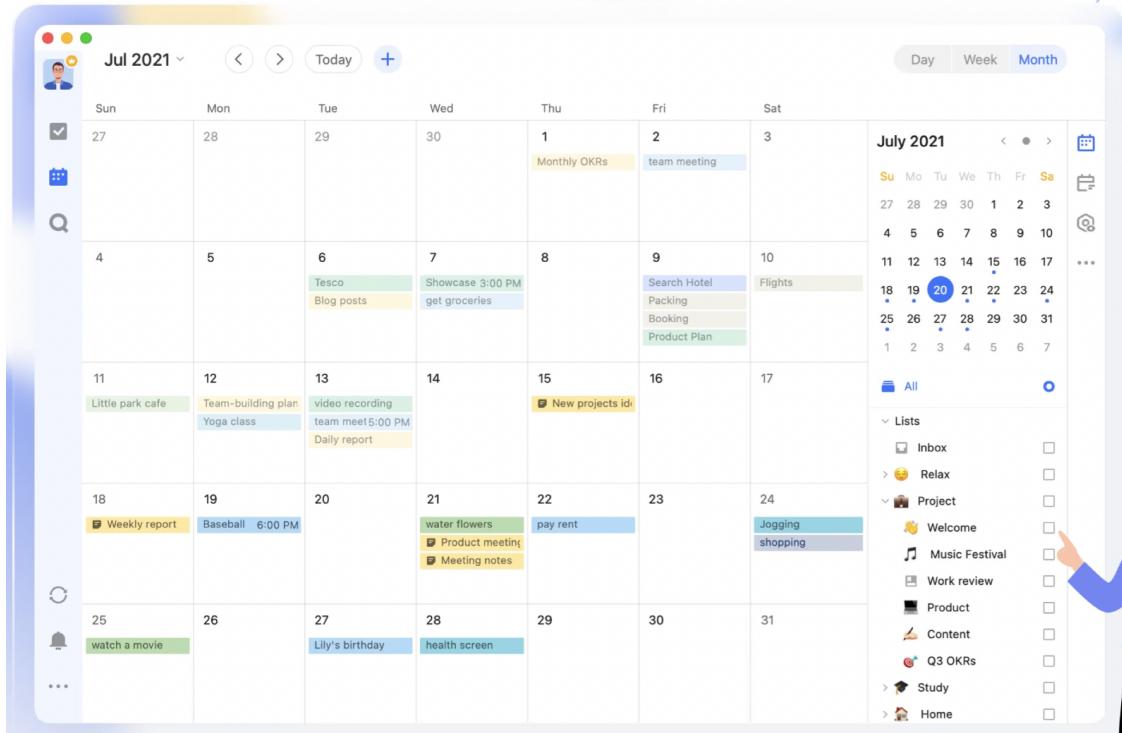

- Clean interface
- Easy user interaction
- Can sync with other users
- Toggle between months

Widgets

- Make page look clean and organized
- Customizable
- Can provide as links to other pages
- Highlight important events and tasks
- Display the date and time
- Add customizable pictures chosen by user

Tick-Tick application

- Readable
- Organized for user
- Displays lists on sidebar
- Has option to click on today

Calendars: Planner and Organizer

- Ability to schedule your day by specified time
- Different colors for different tasks chosen by user
- This application has a shortcuts option which might be a nice thing for users to have

School Calendar Class Schedule

The left screenshot displays a weekly class schedule for 'Second Year Classes'. The grid shows subjects like Chemistry, Accounting, Design, Biology, Culinary, History, and Hospitality across five days. The right screenshot shows a detailed view of a class entry for Chemistry, listing the teacher (Professor Gunther), time (10:00 AM - 10:00 AM), venue (Main Lecture Hall), and kind (Physical Class). It also includes sections for Details, More, Tasks, and Exam.

- Simple interface displaying class schedule
- Gives options for time, teacher, kind, etc.
- Weekly and list view
- Different colors for different classes

Notion

The Notion interface shows the 'Getting Started' page. The sidebar on the left contains links such as 'Emily's Notion', 'Search', 'Updates', 'Settings & members', 'New page', 'Meeting Summaries', 'Getting Started', 'Quick Note', 'Personal Home', 'Task List', 'Journal', 'Reading List', 'Create a team space', 'Templates', 'Import', and 'Trash'. The main content area features a title 'Getting Started' and a sub-section 'Welcome to Notion!'. Below this, a section titled 'Here are the basics:' lists several tips with checkboxes. At the bottom, there is a 'See it in action:' section with a video thumbnail showing a person creating a page.

- Clean interface
- Lots of options for user on sidebar
- Personable and customizable
- Can add your own pictures and images
- Emojis to make it more customizable and aesthetic for user taste
